### N O T I C E

PARTS PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

26 July 1948

TO ALL AUTHORIZED SERVICE STATIONS:

Here is what you have been looking for. Not just a price list -- but an illustrated price list. This illustrated price list is a great forward step in simplifying the ordering of parts for all service stations. It contains for each part, a part number, an exact standard terminology, the list price, the salvage allowance, and the exchange list price of every part. In addition to this, each pen part is illustrated in actual size. Under each part illustration is the part number. The parts price list information is on the reverse side of these pages. The extra pages of illustrations for optional cap designs on pens and pencils will be very helpful when the problem of matching caps for pen and pencil sets arises.

In the past when you have sent in parts for exchange, you have listed the parts sent in for exchange. To simplify this procedure, all that will be necessary is to send us an exchange order to cover the exact number and kind of parts contained in your returned shipment. To avoid misunderstanding, please list the parts by catalog number, quantity, and the name of each item (please use standard terminologies as outlined in the illustrated parts price list). On all plastic parts, please specify the color. Please specify the grade of all nibs desired to keep your stock in balance at all times. We will be able to expedite your orders more rapidly on all parts exchanges and the orders if you will list the parts desired in the following order:

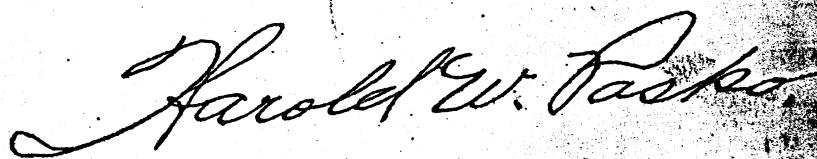

- 1st: Parker Blue Diamond Pen Parts
- 2nd: Parker Non Blue Diamond Pen Parts
- 3rd: Parker Pencil Parts

After you have used the parts numbers a few times, you will find that the system of numbering is very simple to use.

Thanks for being so patient and waiting for us to complete this major undertaking which has required more than a full year of painstaking work and planning. The initial copy of this illustrated price list with continuous correction service is supplied free of charge to each authorized service station. Any extra copies you may require will be available at \$5.00 net each including correction service for the balance of this year.

Cordially,

THE PARKER PEN COMPANY

Harold W. Pasko

General Service Manager
